**AEROFOAM® XLPE**

**Client:**  
Franco Emirien

**Location:**  
Airport Road, Abu Dhabi

**Consultant:**  
Herberger Engineering Consultants

**MEP Contractor:**  
Target Engineering Construction

*The Aerofoam insulation has been delivered in 2011 and has been used for the HVAC applications of the hospital. The required quantities were 14,000 m of tubes and 5,000 square m of rolls of AEROFOAM XLPE. A special attention has been given to the clean look of the surface when choosing the insulation material.*

The project involves construction of a hospital comprising 3 basement levels, a ground floor and 8 additional floors which include 4 presidential suites, 4 royal suits, 4 VIP bedrooms, 4 executive bedrooms and 55 standard bedrooms.
